Whole home
solutions

People are healthier and happier when they can stay safely in their own home.

That's our mission — to make that possible for you.

We are BILD Accessibility Specialists.

We offer a full 360° range of home accessibility solutions of every kind: from remodeling and design to equipment rental and purchase. Our multidisciplinary team - of physical and occupational therapists, assistive technology providers, accessibility consultants, designers, technicians, and skilled carpenters - brings you a holistic approach to accessibility. And we're proud to be recognized leaders in the field.

Whether you're navigating limited mobility, disability-related challenges, caregiver responsibilities or aging-related needs, we guide you to personalized solutions that make your home safer, more functional, and comfortable. We make living easier, better, and more dignified for you and your loved ones.

In a world that often rushes people through, clients tell us it's a relief to speak to someone who truly listens. We understand what you're facing - as a client or caregiver - and we'll guide you on your journey:

From stress to relief.

From frustration to freedom.

From limited to independent.

The bathroom is one of the most common places for falls and can pose challenges for safety and independence in the home. BILD offers accessibility experts who are experienced occupational and physical therapists along with interior design services (courtesy of our Designbild division) for safe, beautiful, and comfortable solutions.

Walk-in & Barrier-free shower

- Barrier-Free has a zero-threshold entry for easy walk-in or roll-in access.
- Full backing in place for custom grab bar placements at any time.
- High friction flooring materials for safety and traction.
- Design support with accessibility consultant ensures a configuration that optimizes independence, functionality, and safety.
- Materials recommendation include:
 - Tile:
- Fiberglass surround:
 - quick installation
 - lower maintenance
 - minimizes bacteria, mold and mildew
 - available in a variety of colors and configurations

Optional removable "stop" that can be converted to roll-in shower

Options for containing water with barrier-free systems:

- Sloped flooring.
- Long, weighted shower curtain.
- Flexible rubber water barrier.
- Linear drain system – strip drain to contain water and provide an even slope.

Options to increase flooring traction:

- Traction tread strips.
- Grip texture floor coating
 - Bacteria resistant
 - Seals grout to prevent staining
 - Can be used on any non-polished surface inside or outside of the home.

Walk-in tub

- Accessible designs that allow for scooting transfers or use of floor transfers lifts.
- Hydrotherapy options
 - Air-jets
 - Whirlpool
 - Pipeless hydrotherapy minimizes mold and bacteria buildup.
- Temperature moderation solutions
 - Heated seats & other strategies for maintaining comfort when water is draining.

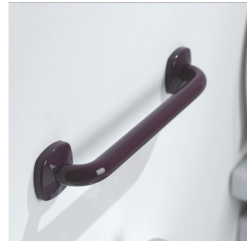

Tub cutout

- An inexpensive option to creating an accessible tub.
- Reversible for resale value.
- May be performed with any material: fiberglass, steel, & cast iron.
- May be utilized with a tub transfer bench for easier transfers.
- Waterproof swing in or removable door make soaking possible.
- Proper placement of the cutout is important for safety and functionality.

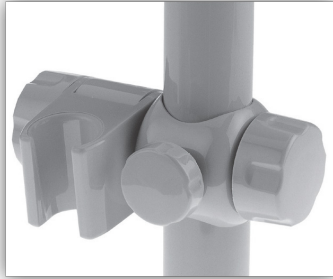

Grab bar solutions & considerations

- Functional grab bar systems that provide reliable supports.
- Transform existing fixtures into grab bars
- Color contrast to provide visual cues
- Bacterial resistant properties
- Non-slip grip
- Decorative
- Up to 500 lb weight capacity
- Flexible installation options
- Soft and warm to the touch

Hand-held shower sprays & diverters

- Pause feature.
- Lightweight and dexterous for ease of use.
- Options for mounting to grab bar / glider bars.

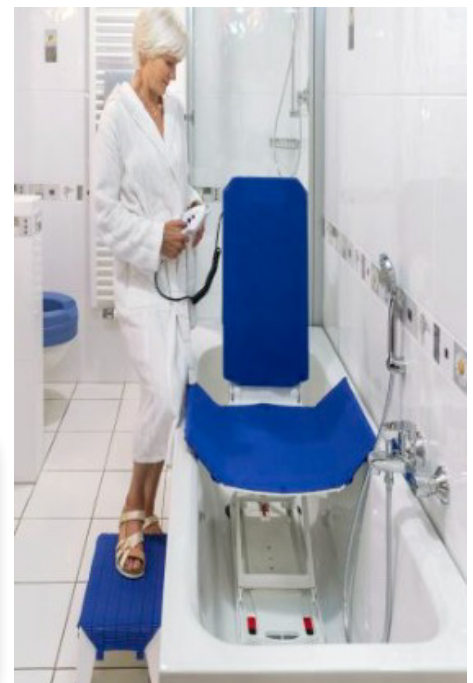

Bathroom doorway widening

- Improved wheelchair access to bathroom.
- May achieve increased clearance with offset hinges.
- Varied door type options to address door swing and maneuverability.

Bathtub lifts

- Safe lowering and smooth rising into and out of the bathtub.
- Reclining back up to 40 degrees
- Battery-powered and water-safe
- Floating hand pendant
- Varied heights and weight capacities.
- Optional sliding disc for easier transfers.

FAWSsit Portable Shower

- Fully assemble, portable shower
- Aluminum frame with a 5-year manufacturer warranty.
- On/off control and variable spray showerhead.
- Durable mildew-resistant shower screen.
- Double layer of reinforced vinyl with embedded foam wedge to direct water to the back of the shower pan.
- Custom pump capsule capable of removing up to 3.5 gallons of water per minute.
- The entire shower stall folds flat for easy storage and convenient transport.
- Optional travel case.

Tub & Step-in Shower Solutions by Nuprod

- **Tub slider chairs** slide easily over and across the tub side wall without a manual transfer.
 - chair slides into the tub, the patented connector bridge can be removed allowing the shower curtain to be closed for privacy.
- **Shower slider chairs** enter backwards through shower door, including those with narrow door entries.
 - maintain a slim profile, slide over and across step-in shower lip using patented connector bridge, then swivel to face shower head and lock in place.

Rolling Shower Chair by BRODA

- Broda shower commode wheelchairs come in various widths to accommodate different users and bathroom setups.
- Standard models typically range from 18 to 24 inches in width, with bariatric options available for larger users.
- They feature adjustable seating, secure positioning, and rust-resistant components
- Broda shower commode wheelchairs are made with high-quality, rust-resistant materials designed for long-term durability in wet environments.

Comfort/ADA height toilets and toilet base risers

- Comfort height toilets raise toilet height to 17-19".
- 2-4" higher than traditional toilets.
- Toilet base risers raise toilet height by 3.5"
- Wall mounted toilet seats allow custom height and more maneuvering space in front of toilet.

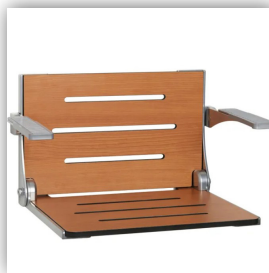

Height(s) may vary based on Brand/Model of toilet

Tub/shower seat transfer options

- Temporary tub/shower seat options.
- Solid or padded seats.
- Gliding seat options to eliminate friction.

Ceiling lift options for bathroom access

- Provides access to bathroom area without the need for remodeling
- Addresses transfers, safety, and bathing access - can be used with positioning seating
- Options available to accommodate vaulted ceiling
- Self-transfer potential with specialized harnesses
- May track continuously from bedroom or other area of home
- May move portable motor onto separate track in the bathroom
- May use pressure fit system which secures track in the bathroom
- May use wall or post mounted reach arm with portable motor
